

## Internal Audit Services

We have a proven track record for assisting the internal audit function of companies by conducting unannounced audit visits to sites and workplaces (often at weekends or during unsocial hours) to confirm that staff and systems are operating correctly.

These audit visits routinely disclose discrepancies ranging from operational or disciplinary shortcomings to criminal activity - sometimes

organised and endemic. This service provides management with an independent assessment of company operations, prevents losses and enhances client assuredness.

Our aim is provide value for money and sharpen existing controls, so as to enhance efficiency and profitability, whilst reducing risk and preventing fraud and theft.
